

Air Compressors For Your Load Moving Equipment

Hovair Systems offers a fine selection of affordable air compressors to complement your air bearing and other air powered (pneumatic) load moving equipment. These quality high performance compressors are available as stand-alone orders or as part of your order for Hovair Systems load moving equipment.

Why purchase a QRS Series Air Compressor?

- ▶ Engineered for high performance, efficiency and reliability
- ▶ QRS air compressors meet the compressed air requirements of the most demanding shops
- ▶ All air connections have been optimized to minimize pressure drop and reduce air leaks.

Shown below are the popular QRS 5HP models. The top picture shows the compressor only, and the bottom picture shows the compressor with refrigerated dryer - for clean dry air.

Quiet By Design

- ▶ QRS series offers lowest noise levels available
- ▶ Low-sound enclosure & innovative cooling fan
- ▶ Installs virtually anywhere in your shop

Exceptional Performance

- ▶ Efficient rotary screw technology
- ▶ High efficiency TEFC motor
- ▶ QRS series offers low energy consumption which contributes to its cost-effective performance

Complementary To Hovair Systems Products

- ▶ Available as an OEM item to purchasers who need a compressor. Make us your one-stop source for both compressor and load moving system

Prices	HP	Compressor	Compressor / Dryer
